EASY WAY to CHECK TIME CLASSIFICATION

Note: These instructions <u>may not work on a mobile device or tablet</u>. Often those devices will not display all the necessary selection options. For best results, use a computer to follow these instructions.

- Go to www.usaswimming.org

- Click on Times

- Click on Times Search & Power Point Calculator

- Select Individual Time Search – enter name

  o if it doesn't automatically go to that page or if not already highlighted (iPad/mobile device) you have to select it

- Select the current competition year

  o If checking before first meet, select last year
  o If checking after first meet, select current year

- Select "All" in the Distance, Stroke, Course, and Age Range categories

- Under Times to Show select - "Show Only Fastest By Event"

- Leave the Sort By selections blank

- Click Find Times

- Look across each event's row to see Classification - Slower than B, B, BB, A, AA etc

- Times from either Short Course Yards (SCY) or Long Course Meters (LCM) count for qualification to meets

Note: You can find this, along with a lot of other helpful information, under the <u>Frequently Asked Questions (FAQ)</u> section under Swim Team on our website. You have to be logged in to see it.
